

Experience the BlanX Difference

BlanX is unlike any other toothpaste sold on the market today! Our unique patented ingredient Arctic moss constitutes a major breakthrough in dental hygiene.

BlanX effectively whitens teeth without enamel abrasion and acts with a powerful anti-bacteriostatic action to fight gum disease and tooth decay.

Discover for yourself why BlanX is Europe's #1 selling tooth whitener since 1990... and why people the world over depend on it for a brilliant, healthy smile.

Much more than a tooth whitener.....

	Reduction of bacterial plaque	Reduction of gum inflammation
Group treated with Blan X	88%	79%
Group treated with placebo	45%	26%
*Clinical studies after one week of treatment		

"BlanX is the only known toothpaste on the market with a natural whitening action, that is non-abrasive and naturally controls the bacterial flora of the oral cavity."

*Professor Solimene, Director
World Health Organization
Milan, Italy*

Economical to use..... BlanX will last approximately 3 months. Just apply a pearl-size amount to your toothbrush after meals or twice daily.

Experience the fresh mint flavor...a super-clean feeling and astonishing results - quickly and effortlessly!

Available in:

Classic & Natural
