

# Cool Lip Balms and Aroma Therapy Soaps

## Introducing 3 new aroma therapy soaps that love your face

One of the nicest things you can do for yourself is wash with a facial soap that enlivens your sense of smell... while it cleanses and balances your complexion. We think you'll agree, these new aroma therapy soaps are so "delicious" you'll look forward to the simple pleasure of washing your face.

Each aroma produces a different effect on the mind, body and emotions. *Rose* uplifts the spirit. *Jasmine* soothes and nourishes the mind and emotions. *Neem*, from the leaves of the nimba tree—used in Ayurvedic medicine for thousands of years to heal problem skin—detoxifies the physiology.

Each soap is formulated with 3 herbal extracts—*Brahmi*, *Pudina* and *Tulasi*—in a mild, natural, transparent base of *coconut oil*, *castor oil* and *oleic acid* to wake up dull, lifeless skin and promote a healthy tone and luster.

## Soothe, nourish and protect your lips with our NEW lip balms

Your lips are one of the most sensitive and expressive parts of your body—and one of the most vulnerable to imbalances, both internal and external. Harsh weather, exposure to sun, synthetic makeup, poor diet, environmental pollution and other lifestyle factors can all contribute to dry, irritated, chapped lips. And since your lips have no sebaceous glands, it's vital that you protect and nourish them with natural moisturizers.

Our new lip balms contain *coconut*, *castor* and *olive oils* for lubrication... *almond* and *carrot oils* for nourishment... and *vitamin E* to protect against the sun and damaging free radicals. Choose refreshing *citrus* or heavenly *rose* fragrance.

### Lip Balm

(PCLBC) *Citrus* .25 Oz. \$5.99

(PCLBR) *Rose* .25 Oz. \$5.99
